

PRODUCER VACANCY

The Role:

Play2Improve is looking for an experienced producer to help us deliver our ground-breaking FPS Trainer system.

This is an excellent opportunity for an individual with the right skills, experience and character to be part of an organisation at the forefront of its field, providing real-time coaching technology to help make complex games and genres more accessible to a broader audience.

You will be enthusiastic, positive, creative, able to manage deadlines and work both on your own and as part of a team whilst under pressure.

Primary Responsibilities:

- Ability to effectively break down tasks
- Negotiating task contracts with developers
- Ensure task delivery
- Experience with AGILE development
- Ability to clearly articulate requirements to developers (written and verbal)
- Point of contact for HR-related issues
- Simulating and tracking project schedules
- Managing high level issues and risks
- Organising meetings and tracking action points
- Defining, evangelising and enforcing best practice to improve the team's track record, reliability and reputation

Essential Experience & Skills:

- Project scheduling software (Hansoft, MS Project or other)
- Team management experience
- Good communication skills, both written and verbal
- Good organisation skills, particularly within a rapidly changing environment
- Office software (Email, Word, Excel, Powerpoint)
- Practitioner in Scrum or equivalent methodologies
- Collaborative websites - wikis, intranets

Desirable Experience, Skills and Attributes

- Experience of the entire games development life cycle
- QA and bug fixing procedures
- Programming languages and tools (particularly C# and Unity3D)
- Multiple platforms (PC online, social, mobile and console)
